### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 3,4,6 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Bank's ATMs let customers give to charity.

The reference teaches a method for selecting a money amount and a charitable organization via a ATM terminal and transferring said amount to qualified charitable organization. Inherent in the use of an ATM is the use of a password.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bank's ATMs let customers give to charity.

The reference teaches a method for selecting a money amount and a charitable organization via an ATM terminal and transferring said amount to qualified charitable organization. It would have been obvious to including the step of providing the donor with a receipt or to not receive a receipt evidencing transfer of the asset and the date of the transfer and to receive a summary of donations as motivated by the need to have a record.

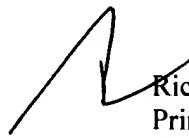

It would have been obvious for one skilled in the art to make this feature available via the internet as internet banking is well known and provides many of the features available through an ATM.

Claim 5 would be allowable if written in independent form.
